Reference: CCTV inspection/hydro-jet cleaning and CIPP lining

Specialized Pipe Technologies proposes the following option to Baywood Colony unit owners:

Option #1: CCTV inspection and hydro-jet cleaning on the sanitary drains lines that service your unit only.

Upon completion of cleaning, SPT will re-evaluate your system to determine if CIPP lining is needed.

Cleaning rates: \$20.00 per ft., minimum of 25'

Approved \_\_\_\_\_ Declined \_\_\_\_\_

Option #2: CIPP lining the sanitary drain lines that service your unit only. 24 hrs after Option #1 completed.

CIPP lining rates: \$60.00 per ft., minimum of \$25'

Approved \_\_\_\_\_ Declined \_\_\_\_\_

These discounted rates are based on being approved within 24 hrs. of working in your unit grouping. If not approved within 24 hrs. but approved before substantial completion of the project, the rates increase to:

Option #1: CCTV inspection and hydro-jet cleaning \$40.00 per ft., minimum of 25'

Option #2: CIPP lining \$100.00 per ft., after Option #1 completed, minimum of 25'

Unit owner is responsible for the lines that service their units only. All shared/common lines are responsibility of the Association and will be cleaned/CIPP lined during the rehab project.

**Upon substantial completion of the project, no discounted rates apply.**

## ACCEPTANCE OF PROPOSAL AND AUTHORIZATION TO PROCEED

The above proposal is accepted and Specialized Pipe Technologies is authorized to proceed with the work as described and payment is hereby guaranteed as noted above. Please return fax signed authorization to 941-379-2160 or email to DeannaM@SPTpipe.com.
